

Oiles Group Procurement Policy

The Oiles Group collaborates with its business partners to promote sustainable procurement in compliance with laws, regulations, social norms, and corporate ethics, as part of its corporate social responsibilities to uphold human rights, ensure occupational safety and health, and protect the environment.

1. Compliance and Sustainable Procurement

We promote sustainable procurement activities in compliance with laws and regulations in Japan and overseas, ethics, and social norms, with due consideration of human rights, environmental protection, society and corporate governance.

2. Proper Transactions

We make rational decisions based on a comprehensive evaluation of factors such as quality, reliability, price, lead time, technological development capabilities, proposal capabilities, sustainability initiatives, and business continuity.

3. Sound, Fair and Equitable Transactions

We provide all business partners with fair and equitable opportunities for competition in order to promote highly transparent transactions.

4. Environmental Protection

We proactively strive to protect the global environment and engage in procurement activities that ensure its protection.

5. Mutual Trust, Co-existence, and Co-prosperity

We seek to establish trust relationships with our business partners with a mutual commitment to develop, grow, and prosper together.
